

COUPLING CREWS AND CUSTOMER SIDINGS

A coupling move can damage a car.

You sort and spot railcars beside customer loading areas. Define siding duties, entrusted cars and lading; specialist rail, custody and employee-injury arrangements depend on actual work and employer.

RISKS WORTH DISCUSSING

- 01 Damage to customer railcars
- 02 Hazardous tank-car cargo releases
- 03 Internal switching-engine failures

Coverage worth discussing

General liability

Claims under expressly accepted switching/rail terms.

Environmental liability

Cleanup under accepted commodity-release terms.

Inland marine

Accepted rail-cargo custody/physical-loss interests.

Equipment breakdown

Internal failures of accepted switching equipment.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
