

INTERMODAL LIFTS AND MIXED YARD TRAFFIC

A dropped container can crush gear.

You transfer freight between rail, trucks and storage. The lifting gear, cars and cargo can have different owners; define lifting, staging and custody alongside suitable rail and worker-injury terms.

RISKS WORTH DISCUSSING

- 01 Freight dropped during transfer
- 02 Yard vehicle and property collisions
- 03 Internal failures of lifting gear

Coverage worth discussing

General liability

Claims under accepted rail/intermodal operation terms.

Commercial property

Insured yard buildings and owned fixed assets.

Environmental liability

Cleanup under accepted terminal-release terms.

Inland marine

Freight under accepted lifting/staging custody terms.

Equipment breakdown

Internal failures of accepted handling equipment.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
