Coverage worth discussing

Products liability

Covered harm from accepted rolling-stock products.

Workers compensation

Supports staff performing fabrication duties.

Inland marine

Protects components during staging and transit.

Commercial property

Covers production assets and units in progress.

General liability

Handles third-party injury at the facility.

Umbrella liability

Extra limits above accepted underlying rail liabilities.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
