

MIXED RAIL SERVICES AND DISPERSED ASSETS

A crossing crash can disrupt routes.

Your regional routes may carry passengers and freight under different track agreements. Declare each activity, asset interest and custody duty; rail-worker frameworks and network interruptions differ.

RISKS WORTH DISCUSSING

- 01 Public injuries at road crossings
- 02 Storm damage to dispersed rail assets
- 03 Physical loss of accepted rail cargo

Coverage worth discussing

General liability

Claims under expressly accepted regional-rail terms.

Equipment breakdown

Internal failures of accepted rail systems.

Cyber liability

Covered ticketing-system response and privacy claims.

Commercial property

Expressly insured rolling stock and rail structures.

Inland marine

Accepted rail-cargo physical-loss/liability terms.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
