

ANIMAL BYPRODUCT RENDERING

Heated fats can fuel a plant fire.

You render animal byproducts into tallow and meal. Heated fats, process releases and hauling duties need distinct accepted property, pollution and transport terms.

RISKS WORTH DISCUSSING

- 01 Grease-driven fire and explosions
- 02 Ammonia and wastewater odors
- 03 Confined space biological hazards

Coverage worth discussing

Environmental liability

Covered claims from accepted process releases or wastewater.

Equipment breakdown

Covered internal failures of accepted rendering machinery.

Workers compensation

Work-injury benefits for eligible rendering employees.

Commercial property

Insured cookers and plant assets after covered damage.

Commercial auto

Covered road liability for declared byproduct-hauling vehicles.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
