The Southern Agency
Insurance & Bonds

LAUNCH-SITE INFRASTRUCTURE OPERATION

A propellant release can damage launch infrastructure.

You operate pads and range systems used by mission tenants. Ground-facility damage, pollution and launch liabilities require distinct accepted interests and terms.

RISKS WORTH DISCUSSING

01 **Propellant fire or explosion**

02 **Soil or water contamination**

03 **Ground crew physical injury**

ROCKET LAUNCH FACILITY INSURANCE

Coverage worth discussing

Commercial property
Insured launch-site structures after covered physical damage.

General liability
Covered third-party harm from accepted premises duties.

Workers compensation
Provides benefits for covered ground-crew injuries.

Environmental liability
Covered remediation involving accepted pollution conditions.

Equipment breakdown
Covered internal failures of accepted cryogenic machinery.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
