

REMOTE TERMINALS AND INSTALLATION VISITS

A terminal mount can damage a roof.

You install satellite terminals and arrange remote connectivity. Actual roof, mast or vessel duties and equipment custody need acceptance, with installation damage distinct from guaranteed signal performance.

RISKS WORTH DISCUSSING

- 01 Property damage during terminal installation
- 02 Physical loss of terminals in remote transit
- 03 Client claims over provisioning errors

Coverage worth discussing

General liability

Resulting harm from expressly accepted installation duties.

Inland marine

Insured terminals under accepted remote-transit terms.

Professional liability

Covered claims from accepted terminal/provisioning work.

Cyber liability

Covered customer-account response and privacy claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
