The Southern Agency
Insurance & Bonds

TECHNICAL MODELS AND SITE ADVICE

A flawed model can mislead a client.

You turn research and technical analysis into client recommendations. Declared specialties and field duties need accepted terms, with flawed-analysis claims distinguished from promised investment or project outcomes.

RISKS WORTH DISCUSSING

01 **Allegedly flawed technical models**

02 **Proprietary client-data breaches**

03 **Third-party injuries during plant visits**

SCIENTIFIC AND TECHNICAL CONSULTING INSURANCE

Coverage worth discussing

Professional liability
Covered claims over expressly accepted technical specialties.

Cyber liability
Covered client-data breach response and privacy claims.

General liability
Covered nonprofessional injury from accepted site activities.

Workers compensation
Work-injury benefits for eligible field employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
