

CALIBRATION AND FIELD INSTRUMENTS

A bad reading can mislead a client.

You calibrate instruments or perform hands-on technical measurements. Accepted methods, portable instruments and internal equipment failures need separate terms, with actual technician duties identified for employee benefits.

RISKS WORTH DISCUSSING

- 01 Alleged calibration or measurement errors
- 02 Damage to portable field instruments
- 03 Internal analytical-instrument failures

Coverage worth discussing

Professional liability

Covered claims alleging accepted calibration-service errors.

Inland marine

Insured portable instruments at accepted work stages.

Equipment breakdown

Covered internal failures of accepted analytical equipment.

Workers compensation

Work-injury benefits for eligible technical employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
