

VULNERABILITY ASSESSMENTS AND SENSITIVE PLANS

An overlooked risk can draw a claim.

You assess how clients protect people, premises and information. Advisory scope should distinguish added guarding, installation or monitoring duties, with sensitive floor plans and site visits identified separately.

RISKS WORTH DISCUSSING

- 01 Allegedly flawed security assessments
- 02 Sensitive floor-plan or protocol breaches
- 03 Third-party injuries during site visits

Coverage worth discussing

Professional liability

Covered claims over expressly accepted security-advisory duties.

General liability

Covered nonprofessional injury from accepted site activities.

Cyber liability

Covered client-data breach response and privacy claims.

Umbrella liability

Extra limits above expressly scheduled underlying liabilities.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
