The Southern Agency
Insurance & Bonds

DEEP SEWER INFRASTRUCTURE

# Your trench runs beneath an active street.

Installing pipe beneath active streets involves confined spaces and heavy machinery that can cause cave-ins or traffic harm.

RISKS WORTH DISCUSSING

01 **Deep trench and confined-space hazards**

02 **Public traffic and pedestrian exposure**

03 **Damage to adjacent utilities**

SEWER CONSTRUCTION CONTRACTOR INSURANCE

# Coverage worth discussing

**General liability**
May respond to site injury or damage.

**Workers compensation**
May cover employees in confined spaces.

**Environmental liability**
May address cleanup for wastewater release.

**Commercial auto**
Vehicle liability for pipe and crew transport.

Coverage is subject to policy terms and exclusions.

## Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
