

SHOP FABRICATION

Machinery and fire exposures

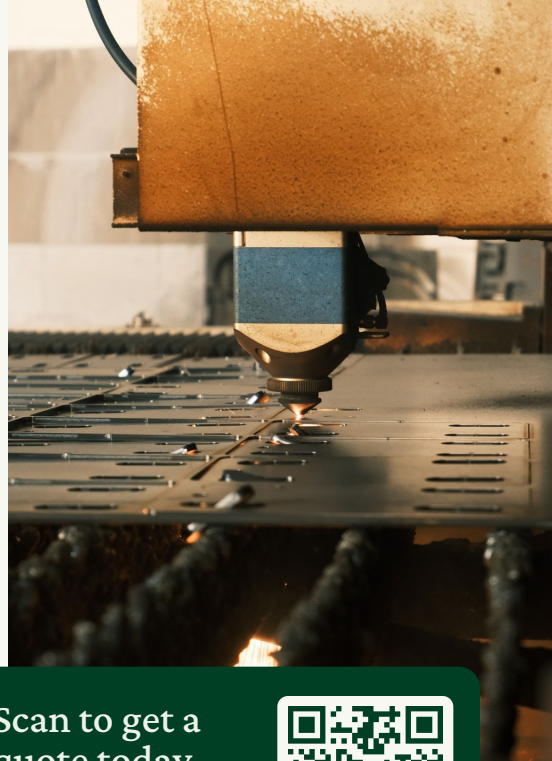

Fabricating ductwork requires powerful shop machinery. A press-brake injury or welding fire can stop your entire production.

RISKS WORTH DISCUSSING

- 01 Shop machinery injuries
- 02 Welding and cutting fire exposure
- 03 Equipment breakdown halting production

Coverage worth discussing

General liability

Covered third-party injury or damage from ductwork.

Commercial property

May protect shop machinery and inventory.

Workers compensation

May provide benefits for fabrication crews.

Equipment breakdown

May help repair shears or brakes after failure.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
