

WATER-BASED AQUACULTURE

Storms and water-quality closure risks.

You raise shellfish in plots, cages or rafts. Living stock, waterborne gear and harvest closures need terms distinct from shore buildings.

RISKS WORTH DISCUSSING

- 01 Product contamination illness claims
- 02 Harmful algal bloom closures
- 03 Storm damage to gear

Coverage worth discussing

Products liability

Covered third-party harm from accepted shellfish sales.

General liability

Help with covered premises injuries.

Inland marine

Specialist cover for declared gear at accepted water sites.

Commercial property

Insured shore-side buildings and declared processing gear.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
