SOLAR ENERGY CONTRACTOR INSURANCE

Coverage worth discussing

General liability
Covers injury or damage like roof leaks or fire risks.

Professional liability
Claims alleging covered solar design errors.

Inland marine
Insures solar panels against theft during transport.

Environmental liability
Cleanup for covered battery pollutant releases.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
