

RACKING AND PANEL MOUNTING

Each roof penetration creates a leak risk.

You mount racking and panels on buildings with existing roof loads. Penetrations and electrical connections create risks.

RISKS WORTH DISCUSSING

- 01 Falls from roofs and ladders
- 02 Water intrusion from roof leaks
- 03 Electrical shock and fire hazards

Coverage worth discussing

General liability

Covers third-party damage like roof leaks or impact.

Inland marine

Covers tools and equipment moved between jobsites.

Builders risk

Protects panels and work against loss during projects.

Commercial auto

Vehicle liability while hauling panels and equipment.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
