

FABRICATION DRAWINGS, MODELS AND PROTOTYPES

A drawing error can disrupt production.

You turn client briefs into designs, fabrication plans or prototypes. Accepted design disciplines and media rights need scope distinct from routine rework, while tools and digital files require their own terms.

RISKS WORTH DISCUSSING

- 01 Alleged specification or design errors
- 02 Copyright or design-rights allegations
- 03 Damage to portable prototyping tools

Coverage worth discussing

Professional liability

Covered claims over expressly accepted design disciplines.

Cyber liability

Covered response to qualifying design-data cyber incidents.

Inland marine

Insured prototyping tools at accepted client locations.

General liability

Covered visitor injury from accepted studio activities.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
