

ARTISANAL FOOD PRODUCTION

Recipe changes can affect buyer safety.

You make specialty foods for markets or wholesale buyers. Recipe changes, shared allergens and production faults create different product, machinery and online-sales interests.

RISKS WORTH DISCUSSING

- 01 Pathogens cause product recalls
- 02 Undeclared allergens trigger illness
- 03 Kitchen equipment fire hazards

Coverage worth discussing

Products liability

Covered resulting harm from accepted specialty-food products.

Equipment breakdown

Covered internal failures of accepted production machinery.

Commercial property

Insured ingredients and equipment after covered fire damage.

Cyber liability

Covered online-sales record breaches and privacy claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
