

CUSTOM MANUFACTURING

A custom batch can introduce a new product risk.

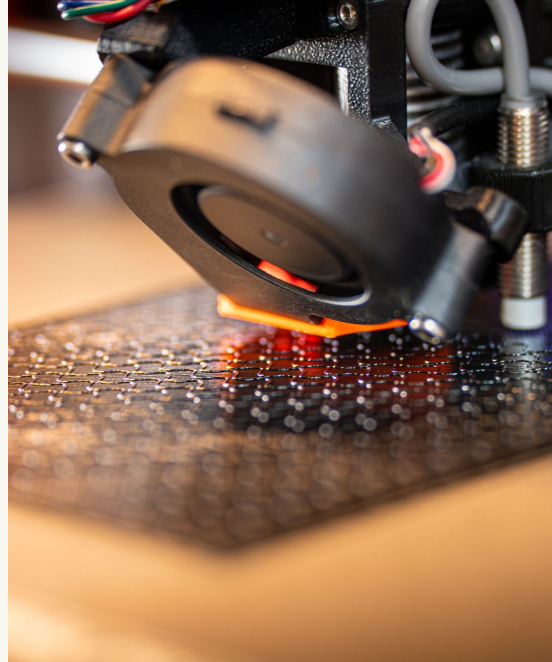

You make custom or private-label goods. Review changing product duties, build-to-spec disputes and hazards during retooling.

RISKS WORTH DISCUSSING

- 01 Variable product liability exposure
- 02 Build-to-spec responsibility disputes
- 03 Retooling and mixed-equipment hazards

Coverage worth discussing

Products liability

Address liability if products cause injury to others.

Commercial property

Protect your plant, machinery, and physical assets.

Equipment breakdown

Repair costs after a covered production breakdown.

Workers compensation

Statutory medical benefits for injured production staff.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
