

DEFENSE ADVICE, GOVERNANCE AND DATA

A disputed analysis can draw a claim.

You produce defense analysis for government or private sponsors. Public, nonprofit or contractor status, accepted duties and permitted data need confirmation; corporate forms do not establish public-official or classified-data protection.

RISKS WORTH DISCUSSING

- 01 Allegedly deficient defense analysis
- 02 Claims over accepted funding governance
- 03 Incidents involving accepted sensitive data

Coverage worth discussing

Professional liability

Covered advisory claims for expressly accepted insured roles.

Cyber liability

Covered response involving expressly accepted data and systems.

Directors and officers

Governance claims involving eligible insured entities and leaders.

Employment practices

Covered staff claims against the expressly accepted employer.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
