

FOREST CONSULTING AND FIELD OVERSIGHT

A flawed harvest plan can trigger claims.

You prepare forest inventories, growth models and harvest schedules. Planning errors, accepted burn duties and field injuries involve different professional and operational exposures.

RISKS WORTH DISCUSSING

- 01 Errors in models or harvest plans
- 02 Escaped burns affecting neighbors
- 03 Field marking or thinning injuries

Coverage worth discussing

Professional liability

Eligible claims from accepted forest-planning advice.

Environmental liability

Covered smoke or drift from accepted treatment duties.

Inland marine

Declared field instruments after covered physical loss.

General liability

Covered third-party harm during accepted field visits.

Commercial auto

Covered road liability for declared forestry work trucks.

Workers compensation

Employee injury benefits for eligible field staff.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
