

TANGERINE GROWING AND SALES

Freeze can damage trees and unpicked fruit.

You tend tangerine trees, then pick, pack and sell the fruit. Growing-crop losses need different terms from buildings, pumps and visitor liability.

RISKS WORTH DISCUSSING

- 01 Freeze damage to trees or fruit
- 02 Picking falls or strain injuries
- 03 Spray drift affecting nearby land

Coverage worth discussing

Commercial property

Insured packing sheds and declared irrigation structures.

Products liability

Covered consumer harm from supplied tangerines.

Equipment breakdown

Covered internal failures of pumps or wind machines.

General liability

Covered visitor injuries at accepted roadside sales.

Workers compensation

Employee injury benefits for eligible picking crews.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
