

FABRIC ASSEMBLY AND INSTALLATION

Structural product failure allegations

You cut and assemble heavy fabrics into canopies. A failed seam or anchor can cause property damage or injury.

RISKS WORTH DISCUSSING

- 01 **Structural product failure**
- 02 **Heat and RF welding fire hazard**
- 03 **Heavy fabric stock storage losses**

Coverage worth discussing

Products liability

Covered harm to others from supplied canopies or covers.

General liability

Covered third-party harm during declared installation.

Inland marine

Declared canopies and tools in covered site transit.

Commercial property

Insured fabric stocks and cutting or welding machinery.

Workers compensation

Employee injury benefits for fabric or installation work.

Equipment breakdown

May help repair welders after internal failure.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
