

TILE AND WET-AREA INSTALLATION

# A waterproofing fault can stay hidden.

You prepare surfaces beneath tile and work around finished rooms. Review later moisture damage, dust exposure and portable wet saws.

---

RISKS WORTH DISCUSSING

- 01 Leaks behind wet-area finishes
- 02 Damage to occupied home interiors
- 03 Silica dust and lifting strains

# Coverage worth discussing

## General liability

Covered damage to existing property from tile work.

## Workers compensation

Benefits for crew illness or handling injuries.

## Inland marine

Wet saws and mixers against theft or transit damage.

## Commercial auto

Vehicle liability while hauling tile and tools.

Coverage is subject to policy terms and exclusions.

## Why The Southern Agency

### 01 Listen

We review your operations, coverage and past claims.

### 02 Assess

We look at hazards and ways to reduce risk.

### 03 Build

We compare carriers, premiums and audit terms.

### 04 Support

We revisit coverage as your work changes.
