

WHOLESALE TIRE DISTRIBUTION

Tire stock burns

You supply varied tire lines to shops and fleets, maintaining large rack-stored inventory and running local delivery routes.

RISKS WORTH DISCUSSING

- 01 Large rubber accumulations cause smoke and fire.
- 02 A supplied tire causes an accident.
- 03 Delivery routes create third-party collisions.

Coverage worth discussing

Commercial property

Insured rack-stored tire inventory at declared peak values.

General liability

Covered customer or driver injuries at your counter.

Inland marine

Declared tire shipments in covered route transit.

Products liability

Covered harm from accepted tire categories you supply.

Workers compensation

Employee injury benefits for lifting or racking duties.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
