Coverage worth discussing

Products liability

Covered harm to others from supplied power units.

Environmental liability

Address cleanup from insured pollution events.

Equipment breakdown

Repair test systems after internal failure.

Inland marine

Declared power units in covered project transit.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
