

WHOLESALE EQUIPMENT DISTRIBUTION

A component fails in service

You distribute parts like axles and couplings for vehicles, which often requires heavy handling and storage.

RISKS WORTH DISCUSSING

- 01 Safety-critical parts cause serious injury.
- 02 Wrong specification causes physical failure.
- 03 Heavy stock is mishandled by staff.

Coverage worth discussing

Products liability

Covered harm from accepted road or rail components.

General liability

Addresses driver or customer injury on-site.

Workers compensation

Employee injury benefits for heavy handling duties.

Commercial property

Insured heavy racking and declared parts stocks.

Inland marine

Declared heavy components after covered transit loss.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
