

ORCHARD PRODUCTION

Contaminated nut products can cause injury.

You harvest, dry and pack tree nuts. Allergen allegations, machinery failures and stored-nut fires create exposures distinct from growing-tree interests.

RISKS WORTH DISCUSSING

- 01 Allergen cross-contamination allegations
- 02 Harvest machinery mechanical failures
- 03 Drying and storage fire damage

Coverage worth discussing

Commercial property

Insured hulling facilities and declared drying equipment.

Products liability

Defends against nut-related injury allegations.

Equipment breakdown

Covered internal failures of hullers or dryers.

General liability

Covers visitor and hauler injury claims.

Inland marine

Declared harvest machinery after covered physical damage.

Workers compensation

Employee injury benefits for eligible orchard staff.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
