The Southern Agency
Insurance & Bonds

POULTRY MANAGEMENT

Ventilation failures can threaten turkey flocks.

You raise turkeys using ventilation, heat and litter-handling systems. Flock mortality and disease-control costs need terms distinct from repairing housing or machinery.

RISKS WORTH DISCUSSING

01 **Flock mortality from disease**

02 **Ventilation and heating failure**

03 **Catching crew loading injuries**

TURKEY FARM INSURANCE

Coverage worth discussing

Commercial property
Insured grow-out houses and declared feed stores.

Environmental liability
Covered releases involving declared litter handling.

Workers compensation
Covers staff during bird handling duties.

Equipment breakdown
Covered internal failures of heating or ventilation systems.

General liability
Covered visitor injuries at the declared turkey facility.

Commercial auto
Covered road liability for declared farm vehicles.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
