

AIRFLOW DESIGN, MONITORS AND FIELD WORK

An airflow error can expose workers.

You design, install or monitor ventilation at working sites. Accepted technical advice, installation duties and staff assignments need distinct terms for professional errors and resulting third-party injury.

RISKS WORTH DISCUSSING

- 01 Alleged airflow or monitoring errors
- 02 Resulting injury after installation work
- 03 Lost field-monitoring equipment

Coverage worth discussing

Professional liability

Covered claims alleging accepted ventilation-service errors.

General liability

Covered resulting harm from accepted installation work.

Inland marine

Insured monitoring gear during accepted field assignments.

Workers compensation

Work-injury benefits for eligible field-service employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
