

MARINE PASSENGERS, SEASONS AND PROPULSION

A propulsion fault can strand a trip.

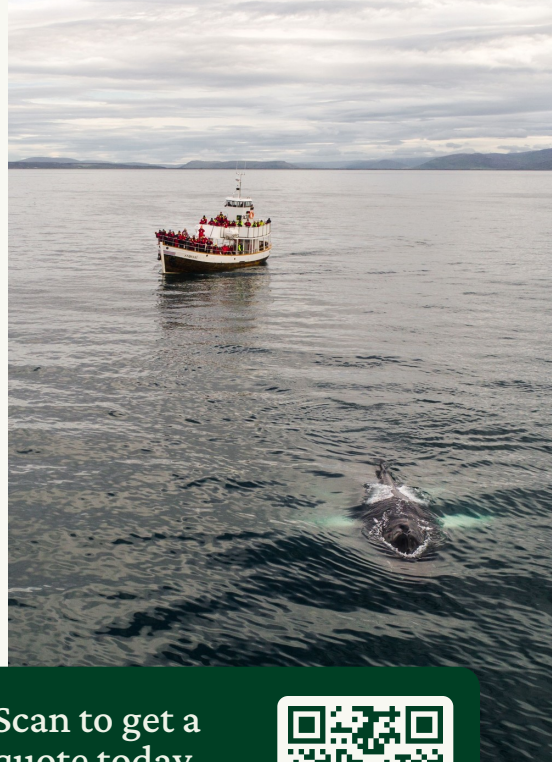

Your vessels carry guests on seasonal wildlife trips. Marine passenger, hull, crew and machinery arrangements need suitable forms; shore assets and accepted pollution cleanup remain separate interests.

RISKS WORTH DISCUSSING

- 01 Passenger injuries aboard vessels
- 02 Internal marine-machinery failures
- 03 Fuel releases during vessel operations

Coverage worth discussing

General liability

Covered visitor injury at accepted shore premises.

Equipment breakdown

Failures under accepted marine-machinery terms.

Environmental liability

Cleanup under accepted marine-pollution terms.

Commercial property

Insured ticket offices, piers and shore assets.

Workers compensation

Benefits for qualifying shoreside work injuries.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
