

RADIO SITES, RETAIL AND SUBSCRIBER DATA

A breach can expose location records.

You operate radio networks and may run retail sites. Actual subscriber/location data and owned or leased equipment need acceptance, alongside climbing duties and fuel/battery releases at network sites.

RISKS WORTH DISCUSSING

- 01 Fire damage to accepted radio equipment
- 02 Exposure of subscriber or location records
- 03 Employee injuries during field or climbing work

Coverage worth discussing

Commercial property

Insured accepted radio/retail interests after covered loss.

Workers compensation

Work-injury benefits for eligible field/retail employees.

Environmental liability

Cleanup under accepted site fuel/battery-release terms.

General liability

Covered injury from accepted site/retail activities.

Cyber liability

Covered subscriber-data response and privacy claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
